

## Verdo Renewables Ltd Wood Pellet Specification

VERDO RENEWABLES has two production plants in the UK; Andover in Hampshire and Grangemouth in Scotland - each plant has an annual production capacity of 55,000 tonnes of wood pellets and 15,000 tonnes of briquettes.

All VERDO RENEWABLES products are manufactured from locally sourced virgin timber and the wood pellets conform to the latest European Standard ENplus A1. Verdo Renewables have been awarded Certificate Number UK001 - the first company in the UK to achieve this accreditation, and FSC accreditation.

### SPECIFICATION;

Calorific Value:	4,800kWhr/tonne
Ash:	≤ 0.7%
Moisture:	≤ 10%
Diameter:	6 mm ± 1
Average Length:	3.15mm to 40 mm
Sulphur:	≤ 0.03%
Fines:	≤ 1.0%
Mechanical Durability	≥ 97.5%
Bulk Density:	≥ 600kg/m <sup>3</sup>

**Certificate No: UK001**
